Dr. Lewis W. Jones
President
Rutgers University
New Brunswick, New Jersey

Dear Doctor Jones:

I wonder if you realize that Professor Heimlich may be guilty of perjury if he tells you under oath that his reason for not answering the Senate Committee is different from the one he gave the Committee.

I doubt if you would want on your faculty a man who changes his answers as expediency dictates. Such a man is not a professor of the truth and deserves no place on the faculty of a higher institution of learning. As a former resident of the State of New Jersey, I trust that you will sever his connection from the University without any more nonsense.

I certainly would not want my son to study under a man who fails to tell the truth to our elected representatives when he is testifying under oath.

Very truly yours,

Percy L. Greaves Jr.
