

New Lisbon, N.J.
January 11, 1911

B.T. Galloway, Chief
Bureau of Plant Industry
U.S. Dept. of Agriculture
Washington, D.C.

Dear Sir:

I recently received from Washington the report on "Experiments in Blueberry Culture," which I have read with great interest, and I write to make a suggestion in regard to future experiments.

My father, Joseph J. White, is one of the largest cranberry growers in the country, and on his property are considerable areas of land too high for cranberries but admirably suited to blueberries, judging by the way the wild ones flourish.

My father authorizes me to offer you the use of this land for further experiments in blueberry culture, and is willing to pay \$50.00 a year for 5 years for such labor as may be needed in the experiments, we to have the proceeds from any crop that might be produced.

I should be pleased to assist in the work by observation, reports, or in any way in my power.

If you should at all consider this proposition, Dr. Shear can perhaps give you some idea of our ability to assist the Dept. of Agriculture in this matter, as I had the pleasure of showing him and two of his assistants over a portion of our bogs last fall.

Trusting that this may receive favorable consideration, I am,

Very respectfully yours,

Elizabeth C. White
