Re: TABER, VINING and WAKSMAN -- U.S.
Ser.No. 497,548, filed March 29, 1955
for ANTIBIOTIC COMPOSITION AND METHOD
OF PREPARATION (Candidin) -- Dkt.3199

Dear Dr. Waksman:

This is to remind you that the above application was filed March 29, 1955 and consequently it will not be long before the end of the so-called Convention year in which foreign applications, if any are desired, should ordinarily be filed. As you doubtless know, it is greatly preferable in most countries to file within the year, and in fact necessary in many countries, if patent protection is desired.

As indicated, this is merely our usual reminder and we shall do nothing toward foreign applications, e.g. in Canada or any other country, unless we have your specific instructions.

Yours very truly,

Robert S. Dunham
